Juergen Pallien International Investor, Speaker & Philanthropist

Juergen Pallien is a Master of Trading! His ability to automate success in Business and Investing, creates financial liberation to pursue the most exciting and important things in life!

- Author of the upcoming book "Dispelling the myth of Wall Street"
- Co – Author with his teen protégé Tray Sean; "10 seconds to Child Genius"
- Benefactor – Educating The Girl Child Charity, Ghana

Juergen grew up in a very poor and rural area in Germany. With childhood memories tainted by the incessant arguments over money by his parents, he decided as a boy, that when he grew up, he would never want to argue about money.

The idea of having money work for you fascinated young Juergen. He studied the wealthier people in his community and found two groups of people: business owners and investors. To be on the safe side, Juergen did both! He started at an early age to invest in stocks, properties as well as building successful businesses. Juergen's mantra has always been „if you have to choose – take both!“

Thanks to the genius trading strategies he developed, he was able to fully retire, aged 35, only one year after recovery from his second bankruptcy where he lost circa 4.5 million € in the insolvency of his company.

Speaking to over 2500 entrepreneurs and business owners in Los Angeles in 2016, Juergen set himself the mission to: Financially liberate 1 million people in the world so they can live their passions rather than spending their limited time on earth making ends meet. Today, as an international speaker, Juergen has shared stages with top business minds and celebrities such as *Michael Douglas, Mark Wahlberg, Mel Gibson* and *Apple Co-founder Steve Wozniak*.

His company teaches people with no prior financial knowledge to sustainably earn money in the stock market, spending as little as 15 minutes a day at it. This allows them time to master investing, alongside a full-time day job. Many students have been able to quit their jobs, less than a year after attending his training. Investing in future leaders, he has even trained 13yr old traders proving how easy trading is to learn.
