## Highlights:

- Small groups (max. 10 people)
- Interactive conversations
- Practice-oriented exercises
- Opening and introduction to the personal trading account
- Access to the exclusive online trading community

## FAQ:

- Can I start trading immediately after the mastermind?

*Yes you can. I advise you to start with a special strategy in 2-3 markets. Of course, before you start with your real money, it is useful to trade the first 4 weeks in a demo account to completely internalize the strategies.*

- How much time does trading take each day?

*It depends on how much time you want to invest. Basically 15 minutes in the morning and 15 minutes in the evening are sufficient. The more experience you gain, the less time it takes to trade.*

- When do I really start earning money?

*As soon as you are finished with the Mastermind, you can start trading on your responsibility. As already mentioned, I advise you to trade the first 4 weeks in a demo account.*

- Is it possible to pay in installments?

*Yes, either a one-off payment of € 7,500 or 3 installments of € 2,750 each.*

- Is there a money back guarantee?

*Yes, there is a 100% money back guarantee if you realize after the first day of the Mastermind that it doesn't feel right to you.*
